

DRINKING WATER WARNING UPDATE

DRINKING WATER PROBLEM CORRECTED

*Este informe contiene información muy importante sobre su agua potable.
Tradúzcalo o hable con alguien que lo entienda bien.*

Customers of Sunland Water Company were notified on May 3, 2024 of a problem with our drinking water and were advised to Boil all drinking water prior to consumption. We are pleased to report that **the problem has been corrected and it is no longer necessary to boil your drinking water** prior to consumption. We apologize for any inconvenience and thank you for your patience.

Sunland Water Company has consulted with the Arizona Department of Environmental Quality on this issue to ensure we have adequately responded to the problem.

On Friday the 3rd we increased the disinfection levels and flushed the system. This helped to address any potential issues with the water in the network. We then took additional bacteria (*E.coli*) samples, which have all come back negative.

As always, you may contact Paul Juhl at 520-448-4975 Ext 107 with any comments or questions.

Please share this information with all the other people who drink this water, especially those who may not have received this notice directly. You can do this by posting this notice in a public place or distributing copies by hand or mail.

This notice is being sent to you by Sunland Water Company.
